

**Buckman Lock now open seven days a week.**

The locktender's hours now run from 6:30 am to 3 pm seven days a week. The phone number remains 386-329-3575 and hikers may call ahead to ensure availability of personnel during those hours.

FTA members who are thru-hiking the 1400-mile trail may contact FTA for the gate combinations to cross after hours. The Office of Greenways and Trails (OGT) has prohibited FTA from giving out this info to anyone who is not both an FTA member AND an FNST thru-hiker, so please do not ask FTA for the combination unless you fulfill OGT's requirements. All other FT hikers should plan to cross the lock during scheduled open hours.
