FTA Map No. 10 Apalachicola East
Perm. Change? No
Effective Date: 01/30/2012
Ending Date: 12/31/2012

Description:

Due to material condition, the boardwalks crossing the Spring Creek section of the FNST on St Marks NWR have been temporarily removed. The area is passible, but wet. Use caution as cypress knees are present in the tread way.

The restricted corridor at this location provides no reroute opportunities for thru hikers. Day hikers entering the area are encouraged to hike out and back from the Purify Bay Rd. Trail Head on the West side and Spring Creek Hwy on the East .

Construction of new boardwalks are tentatively planned for 2012 and currently pending engineering and design.
