

Change of Nomenclature Addendum

Based on the March 23, 2022 Revision to the
BYLAWS of THE FLORIDA TRAIL ASSOCIATION, INC.
(A Florida not for profit Corporation)

Reason for Addendum:

The bylaws of the Florida Trail Association, Inc. were revised on March 23, 2022. One significant change was shifting the organization leadership from a structure where officers were elected by the membership (President, Vice President Governance, Vice President Membership, Vice President Trails, Treasurer and Secretary) to a structure where the officers are elected by the Board of Directors from the existing Directors, with the new officers being Chair, Vice-Chair, Treasurer and Secretary. There are also defined committees with the committee chairs being selected by the Chair and being approved by the board, or committee chairs as defined by the bylaws, some of which have signatory approvals of documents.

This change will impact several of the Florida Trail Association governing documents including the Bylaws, FTA-USDA-FS-MOU, Chapter Operating Procedures, Activity Leader Guide, FTA Trail Manual, etc. These documents will require future revision to bring the leadership position nomenclature up to consistency with the revised bylaws. In the interim, this document is intended to bridge this inconsistency.

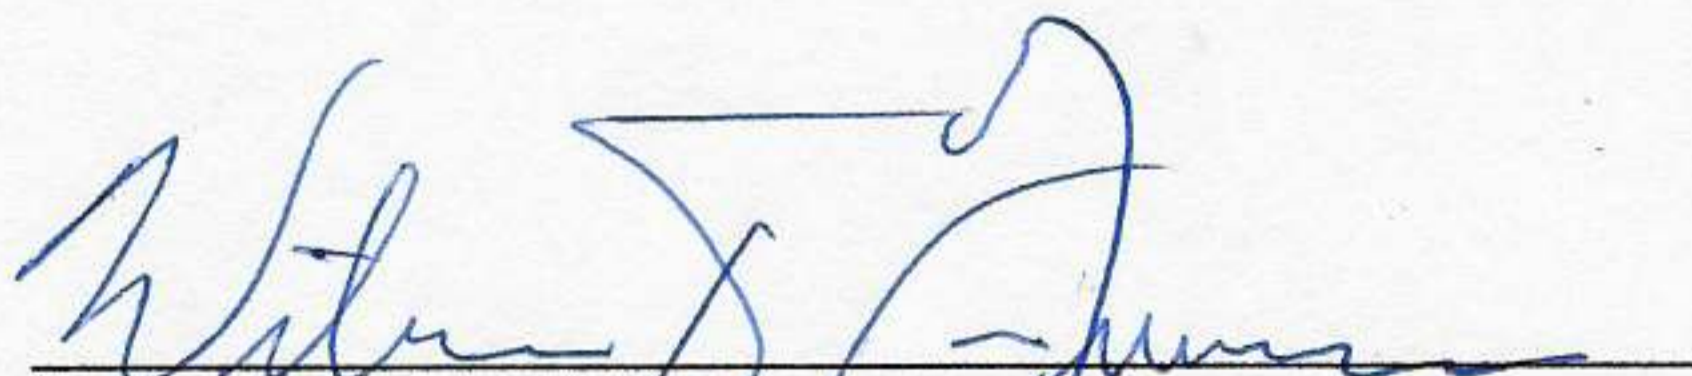

Methodology:

Within the controlling documentation in question, if a specific officer position title is defined for approval or signature, then the new officer position title provided in the cross-listing in the next section will become the appropriate officer for approval or signature.

Once all of the documents containing old officer position titles are revised to transition to the new officer position titles, this addendum will no longer be required and will become inactive.

Officer Nomenclature Bridging:
