

IDIDAHIKE 26 -Trail Maps / Implementation / Hikes

Pre-Hike

Trail Maps - FTA has created four geolocation maps (PDF) for the IDIDAHIKE. These are *custom* designed maps with imbedded GIS data for use in the Avenza Map app. When used in the Avenza Map app they display the route of the trail and the user's location on the map.

Tutorial / Guide:

1. Download the basic Avenza Map app (free download).
2. Download the appropriate [geoPDF](#) map from the IDIDAHIKE webpage to your cell phone's file.
3. In the Avenza Map app select upload (+) a *custom* map from your files.
4. From your files select and open the desired map file.
5. View the selected map in the Avenza app.
